Dear Dr.Jadhav and Dr.Shaikh ,

Greetings from K.E.M. Hospital Research Centre, Pune!

Thanks for the confirmation, we are pleased to conduct a session for the staff and **students of Manavlok College of Social Science.**

Below are the details for the webinar session

Date: 27 Oct 2020.

Time: 2:00 PM to 3:30 PM

Platform Zoom: Zoom link will be shared on 23 Oct 2020.

Below are the details of speakers:

Speakers: 1. Dr Vasudeo Paralikar (Prevention of Sexual Violence by Treatment of Pedophilic patients) and

2.Rashmi Chabukswar (Prevention of Sexual Violence by deterrence with the help of Mobile App: **NO KEMHRC App**)

Resource Details are as follows:

1. Dr. Vasudeo Pralhad Paralikar, MBBS, MD (Psychiatry, University of Pune), PhD (Cultural Epidemiology, Swiss TPH & University of Basel, Switzerland)

Dr. Paralikar is Honorary Associate Consultant and Head of Psychiatry Unit at the KEM Hospital, Pune. He has four projects post-PhD to his credit at the KEMHRC apart from a couple of clinical trials and consultant responsibility on two others.

Vasudeo has extensive experience in Government Mental Hospitals. He played a meaningful role in the upgradation of the Psychiatry Department of BJMC and formation of the State-level apex institute – the Maharashtra Institute of Mental Health in Sassoon Hospitals campus. Vasudeo's positions allowed him to foster his private clinical practice concurrently since January 1984 till date. His practice focuses on critical issues in high-functioning patients. His areas of interest are cultural psychiatry, Neurasthenia Spectrum Disorders, cultural formulation and culturally appropriate counseling. Bridging the gap between practice and research has been a long-standing interest, for which he has been working toward the development of socio-cultural formulation. His latest and current responsibility on the Program for Primary Prevention of Sexual Violence (PPPSV) gave him some valuable experience regarding the role of sexuality in health and disease in general, and about non-offending, motivated persons with pedophilia in particular.

He was the President of Pune Psychiatrists' Association for one year, and is a member on the Board of Directors of the World Association of Cultural Psychiatry, and a member of the Society for the Study of Psychiatry and Culture. He is responsible for a couple of special interest groups of the WACP and also on the editorial board of the online journal World Cultural Psychiatry Research Review.

He has over 30 peer-reviewed publications to his credit, has contributed chapters in text-books and written regularly in Marathi newspapers and periodicals focusing on demystification & de-stigmatization of various issues in Psychiatry.

2. Rashmi Chabukswar: Consultant at Bayer India for CSR Program.

PG diploma in Clinical Research M.Sc(Biotechnology),and B.Sc(Microbiology),with 14 Years'experience and exposure in US healthcare, Clinical research,Academics and BPO domain...Track Record of Success in... US Healthcare|Process training,Operations,and Processes|SME|Process Improvement.

Program details are as follows:

KEM Hospital Research Centre has initiated a Program for Primary Prevention of Sexual Violence (PPPSV) in pursuit to prevent child sexual abuse in India since 2016. This program has been culturally translated and adapted from the approach "Don't Offend" that has been successfully treating individuals who have sexual preference towards children [Pedophilia] all over Germany since 2005 at the Charité Institute, Berlin, Germany.

The major strategies of the program comprise of **therapeutic help (both online and offline) for people with pedophilia by the experts in the field; and prevention of sexual violence through 'NO' application** developed by the project. Evidence shows that although the problem exists in the community, awareness on this issue is very rare. Stigma attached to sexual violence and pedophilia prevents people to discuss the problem openly, resulting into conditions like depression, sexual dysfunction or social isolation. Therefore, it is crucial to spread awareness about the problem in the community at large and motivate possible pedophilic patients to come forward for help seeking.

At the same time, 'NO' is an application developed by the project team, which has a component of providing security to the young girls/ women. This app has a provision of creating a network of users who can be contacted immediately during a crisis situation.

Both these strategies highlight the need of spreading awareness among men and women above 18 years. The awareness programs are conducted at various levels i.e. psychologists, counselors, school staff and college students, NGO staff and beneficiaries, Government staff, corporate staff etc. and those are conducted by the experts in the field, Dr. Vasudeo Paralikar, Head of the Psychiatry department KEM Hospital, Pune.

Information about 'NO' App is beneficial from a safety point of view.

Please let us know if you require any additional information.

 NO App Brochure Feb 2020 .pdf
